

The Computing Community Consortium: Catalyzing and Enabling Computing Research

Susan L. Graham
Chair

Gregory D. Hager
Vice-Chair

Beth Mynatt
Incoming Vice-Chair

Ann Drobniś
Director

Andrew Bernat
CRA Executive Director

<http://cra.org/ccc>

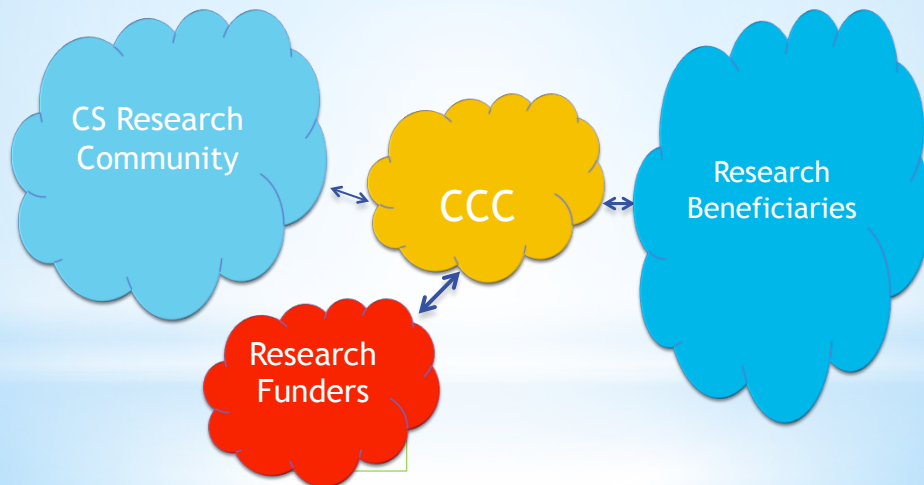

An Overview of the Computing Community Consortium

- Established in 2006 as a standing committee of the Computing Research Association
- Funded by NSF under a Cooperative Agreement
 - 2012 renewal is the subject of this review
- Facilitates the development of a bold, multi-themed vision for computing research - and communicates this vision to stakeholders
- Led by a broad-based Council
- Staffed by CRA

<http://cra.org/ccc>

Why Have a CCC?

<http://cra.org/ccc>

Our Mission

The **mission** of Computing Research Association's Computing Community Consortium (CCC) is to:

catalyze the computing research community and
enable the pursuit of innovative, high-impact research.

CCC conducts activities that

strengthen the research community,
articulate compelling **research visions**, and
align those visions with pressing **national and global challenges**.

CCC **communicates** the importance of those visions to **policymakers**, government and **industry stakeholders**, the **public**, and the **research community** itself.

<http://cra.org/ccc>

A Multitude of Activities

- **Community-initiated visioning:**
 - Workshops to discuss “out-of-the-box” ideas
 - Blue Sky Ideas tracks at conferences
- **Outreach to White House, funding agencies:**
 - Outputs of visioning activities
 - Short reports to inform policy makers
 - Task Forces - Health IT, Sustainability IT, Data Analytics

- **Communicating CS Research:**
 - “The Impact of NITRD” symposium
 - Research “Highlight of the Week”
 - CCC Blog [<http://cccblog.org/>]
 - Computing Research in Action Video Series
- **Nurturing the next generation of leaders:**
 - Computing Innovation Fellows Project
 - “Landmark Contributions by Students”
 - Leadership in Science Policy Institute

<http://cra.org/ccc>

What Distinguishes CCC?

- **Proactive, rapid response**
 - Identify, plan, and execute in a matter of weeks to months
- **Community-based**
 - Find and foster ideas from germination to fruition and beyond
- **Leadership incubator**
 - Everyone is expected to do something!

<http://cra.org/ccc>

Renewal Proposal Goals

1. Establish the CCC as a widely accepted catalyst and voice for the computing research community.
2. Bring the computing research community together to envision our future research needs and thrusts.
3. Communicate these challenges, needs and thrusts to the broader national community.
4. Create within the computing research community more audacious thinking.
5. See the ideas developed in the second and fourth points above turned into funded research programs.
6. Increase the excitement within computing research and use that excitement to attract students.
7. Inculcate values of leadership and service.

<http://cra.org/ccc>

Renewal Review Recommendations

1. Sustainability
 - a. Investigate the viability of broader funding
 - b. Leadership succession - move from a start-up to a sustained organization
2. Broadening Reach
 - a. Outreach to additional federal agencies and to Industry
 - b. Outreach to broad computing community
 - c. Outreach along with CISE to university leadership
3. Recognize tension between expanded breadth and impact.

<http://cra.org/ccc>

Outline

- New Organizational Structure
- Catalyzing: Ideas to Action
- Enhanced Community Building
- Communicating
- Connecting
- Impact

<http://cra.org/ccc>

New Organizational Structure

<http://cra.org/ccc>

New CCC Organizational Structure

Chair, Vice-chair

- 2 year non-staggered terms
- Vice-chair is presumptive chair

Executive Committee

- Chair, Vice-chair, Director
- 3 at large drawn from Council for 1-year terms
- CRA Executive Director

Council

- 20 members
- 3 year terms, at most 2 consecutive terms

Director, Program associate

- Full-time paid positions

<http://cra.org/ccc>

What Does Executive Committee Do?

- Each member has a major responsibility within the organization
- Oversees the work of subcommittees and working groups
- Guides the planning of new activities
- Oversees the execution of the Strategic Plan

- Meets weekly by teleconference
- Meets biweekly with NSF by teleconference

<http://cra.org/ccc>

What Do Council Members Do?

- Shepherd visioning activities
- Participate in topical subcommittees
 - Examples: Health IT, Sustainability, Robotics, Big Data
- Develop new activities
 - Examples: CIFellows, LISPI, Post-doc Best Practices
- Engage with related groups (CISE AC, CSTB, ACM ...)
- Other requests as needed
 - Example: short turnaround white papers
- Bi-weekly teleconferences
- Three face-to-face meetings each year

<http://cra.org/ccc>

New Succession Plan (and Bylaws)

- Biannual Chair/Vice-chair renewal
 - Normally, Vice-chair becomes new Chair
 - Outgoing Chair and Vice-chair and Director select new Vice-chair, with broad confidential consultation
- Annual Executive Committee renewal
 - Chair, Vice-chair, and Director select at-large members for 1-year terms
 - Leadership-grooming opportunity

<http://cra.org/ccc>

More on Succession Plan

- Annual Council renewal
 - 3-year term can be renewed once (unless become Vice-chair/Chair)
 - Potential for organizational leadership important
 - Diversity of field, institution, professional age, gender, under-represented groups all important
 - Commitment important
- Open search - nominations invited
- Search committee is chaired by EC member
- Coordination with EC

<http://cra.org/ccc>

Changes to the CCC Council

- Terms ending 6/2016
 - Randy Bryant, CMU - **1 year leave**
 - Limor Fix, Intel
 - Mark Hill, U. Wisconsin, Madison
 - Tal Rabin, IBM Research
 - Daniela Rus, MIT
 - Ross Whitaker, Univ. Utah
 - Terms ending 6/2015
 - Liz Bradley, Univ. Colorado
 - Susan Davidson, Univ. Penn.
 - Joe Evans, Univ. Kansas
 - Ran Libeskind-Hadas, Harvey Mudd
 - Elizabeth Mynatt, GA Tech
 - Shashi Shekhar, Univ. Minnesota
 - Terms ending 6/2014
 - Deborah Crawford, Drexel
 - Anita Jones, Univ. Virginia
 - Fred Schneider, Cornell
 - Josep Torrellas, Univ. Illinois
 - Bob Sproull, Sun Labs Oracle (ret.) - **term extended one year**
 - Terms ending 6/2017
 - Jennifer Rexford (Princeton)
 - Klara Nahrstedt (UIUC)
 - Vasant Honavar (Penn State)
 - Debra Richardson (UC Irvine)
 - Lorenzo Alvisi (UT Austin)
 - Ben Zorn (Microsoft Research)
- new members** (referring to the 6/2017 terms)
- rotate off** (referring to the 6/2014 terms)

<http://cra.org/ccc>

Changes to the CCC Executive Committee

2013-14 to 2014-15

- Susan Graham, UC Berkeley (Chair) - becomes Past Chair
 - Greg Hager, Johns Hopkins (Vice Chair) - becomes Chair
 - Ed Lazowska, U. Washington (Past Chair) - rotates off
 - Elizabeth Mynatt, Georgia Tech - becomes Vice Chair
 - Fred Schneider, Cornell - rotates off
 - Sue Davidson, Univ. Pennsylvania - rotates off
 - Ann Drobnis, Director
 - Andy Bernat, CRA Executive Director

 - Liz Bradley
 - Mark Hill
 - Bob Sproull
- } - rotate on

<http://cra.org/ccc>

CRA Staff

- CCC Director: Ann Drobnis
 - 100% CCC, responsible for day-to-day management of the Organization
- Program Associate: Helen Vasaly
 - 80% CCC, responsible for logistical support and back-up to Director
- CRA Executive Director: Andy Bernat
 - 40% CCC, responsible for general oversight
- Other CRA Staff:
 - Peter Harsha, Director of Government Affairs
 - Shar Steed, Communications Specialist
 - Jane Stout / CERP, Evaluation

<http://cra.org/ccc>

Catalyzing: Ideas to Action

<http://cra.org/ccc>

Visioning Processes

- Periodic RFP for Community Initiated Activities
- Historically 3-7 workshops per year
- Top-down (agency initiated)
- Bottom-up (open call)
- Sideways (council initiated, joint with other agencies,)

Robotics

Spatial
Computing

Online
Education

Privacy R&D

Uncertainty in
Computation

<http://cra.org/ccc>

Visioning Activities

2012

- From GPS and Virtual Globes to Spatial Computing - 2020
- Computing and Healthcare: New Opportunities and Directions

2013

- Convergence of Software Assurance Methodologies and Trustworthy Semiconductor Design and Manufacture (SA+TS)
- Multidisciplinary Research for Online Education
- Privacy R&D Workshop (with ITIF)
- Extreme Scale Design Automation 2 (with ACM)
- Visions of Theory of Computing (with Simons Institute)
- Robotics, Automation, and Computer Science (with NSF, OSTP)

2014

- Extreme Scale Design Automation 3 (with ACM)
- Computing Visions 2025: Interacting with the Computers All Around Us (with CISE)
- Computing Visions 2025: The New Making Renaissance: Programmable Matter and Things (with CISE)

<http://cra.org/ccc>

Visioning Activities: Upcoming

- Human Computation (from open solicitation)
- Uncertainty (from open solicitation)
- Aging in Place (with NIH)
- Computing Visions 2025: Computing and the Smart World (with NSF CISE AC)
- BRAIN (with NSF CISE)
- 2 more under development from Community

<http://cra.org/ccc>

Computing Visions 2025

- Joint Venture of NSF CISE Advisory Committee and CCC
- Articulate future trends and opportunities in computing research. Envision evolution and growth over the next 10 to 15 years.
- 3 Initial Workshops:
 - **Interacting with the Computers All Around Us**
 - Look at how technology could change how computers interface with people and the world around them.
 - **The New Making Renaissance: Programmable Matter & Things**
 - Explore the way items are designed, programmed, manufactured, and delivered/deployed.
 - **Computing and the Smart World (forthcoming)**
 - Look at the massive amounts of data and advanced analytical techniques to “make the world smart”
- Panel session at Snowbird 2014

<http://cra.org/ccc>

Blue Sky Ideas Conference Tracks

- BuildSys 2012
- Computational Sustainability Track @ AAAI 2013
- Computational Sustainability Award @ CHI 2013
- Robotics: Science and Systems 2013
- Conference on Innovation Data Systems Research (CIDR-2013)
- Autonomous Agents and MultiAgent Systems (AAMAS-2014)
- Upcoming:
 - Foundations of Software Engineering 2014
 - Association for the Advancement of Artificial Intelligence 2015

<http://cra.org/ccc>

Community Building

<http://cra.org/ccc>

Leadership in Science Policy Institute

To educate a cadre of computing researchers on how science policy in the U.S. is formulated and how our government works

November, 2011

- 34 attendees;
- 7 women
- 19 received financial aid
- 24 institutions represented
- 23 participants from public institutions; 7 from private; 4 from industry;

Henry Kelly, DoE

April, 2013

- 53 attendees;
- 12 women
- 6 received financial aid
- 47 institutions represented
- 40 participants from public institutions; 12 from private; 1 from industry

Mitt Corn, NIH

Attendees

<http://cra.org/ccc>

CI Fellows

- Computing Innovation Fellows, to keep PhD graduates in the research pipeline during the economic downturn
 - 2009: 60 Fellows, 50 have permanent research positions (33 academic, 16 industry, 1 government)
 - 2010: 47 Fellows, all have permanent positions in research (27 academic, 20 industry)
 - 2011: 20 Fellows, 15 have permanent research positions (11 academic, 3 industry, 1 government)
- CERP's CI Fellows Evaluation Report - April 2014
- CI Fellows Workshop - May 22-23, 2014

<http://cra.org/cicp>

CI Fellows Evaluation - Key Findings

Compared to Non-fellow Postdocs, CI Fellows

- Experienced greater independence during their postdoc
- Were more satisfied with how their postdoc prepared them for balancing work-life responsibilities
- Received higher postdoc salaries that made it easier to live and relocate
- Had higher salaries at the time of the survey

Postdoc programs in general:

- Were rated positively in terms of support, opportunities, and skills preparation
- Could be improved to reduce negative impact of relocating
- Could be more accommodating of personal and family responsibilities

Computing Innovation Fellows Project -> Postdoc Best Practices

Request for Proposals (RFP)

Implementation of Best Practices for Supporting Postdocs

[PDF Version](#)

In recent years, new Ph.D.'s in the CS&E community have increasingly chosen postdoc training assignments in their pursuit of research careers. Large numbers of postdocs in CS&E are a new phenomenon for us. Our community has an opportunity, as a field, to institutionalize a set of best practices, drawn from our own experience and that of postdocs in other fields and to establish a culture that provides postdocs a superb enriching experience that launches their research careers.

In recent years, new Ph.D.'s in the CS&E community have increasingly chosen postdoc training assignments in their pursuit of research careers. Large numbers of postdocs in CS&E are a new phenomenon for us. Our community has an opportunity, as a field, to institutionalize a set of best practices, drawn from our own experience and that of postdocs in other fields and to establish a culture that provides postdocs a superb enriching experience that launches their research careers.

<http://cra.org/ccc>

Postdoc Best Practices

- 3 Projects began April 2014 for 3 years
 - **ASCENT: Advancing computer Science Careers through Enhanced Networking and Training**
 - Columbia, Cornell, CUNY, NYU, Teacher's College
 - **Taking Collective Responsibility for the Postdoc Experience**
 - University of Washington
 - **A Foundational Model for Postdoctoral Programs in Computer Science & Engineering at Large Universities**
 - Arizona State University, with University of Arizona and Northern Arizona University

Connecting

<http://cra.org/crc>

Connecting: Collaborative Workshops

- NSF beyond CISE
 - BIO (BRAIN)
 - ENG (Manufacturing, Robotics)
 - EHR (Online Education)
 - GEO (Spatial Computing)
 - MPS (Big Data)
 - SBE (Health)
- HealthIT events (NIH, CMS, AHRQ, VA, FDA, NSF)
- Aging in Place (NIH, CMS, AHRQ, VA, FDA, NSF)
- Many agency participants in CCC-sponsored workshops

<http://cra.org/ccc>

Connecting: Other Interactions

- Overlapping memberships
 - Sproull (CSTB), Rexford, Davidson, Horwitz (CISE AC), Graham (ASCAC, PCAST), Jones (NAE Council), Lazowska (many), Bryant (term at OSTP), CCC Chair (CRA Board), Davidson, Schneider (CRA Board)
- Many meetings and discussions
 - OSTP
 - Dept. Ed, offices within DoE
 - Bourne - new NIH AD for Data Science
- Participation in CSTB studies (Mynatt, Lazowska, Bryant, Sproull, etc.)
- Shared visioning - ISAT
- Many external talks about CCC

<http://cra.org/ccc>

How Do We Measure Success?

- Quantitative
 - 478 Participants in CCC Visioning activities
 - 349 Participants in co-sponsored activities
 - 154 people have submitted papers to Blue Sky Ideas Conference Tracks
 - 103,999 unique visitors to the CCC Blog

<http://cra.org/ccc>

How Do We Measure Success?

- Quality: responses from 2014 workshop evaluations

<http://cra.org/ccc>

How Do We Measure Success?

- Awareness: requests for activities, support, talks; workshop proposals and participation; blog readership and re-posting.
- Agility: quantity and rapidity of responses to government requests for input, new mechanisms that we create in response to a CSE community need.
- Breadth and diversity of participation in CCC activities.

<http://cra.org/ccc>

The Impact of CCC in 2025

- The quality and vigor of our national research program
 - Computer science core has a clear identity and vibrancy
 - Computer science research is broad, inclusive, collaborative
- Advancement of CSE in science and national priorities
 - Any major S&T board has substantial CSE representation
 - Funding agencies have grown and expanded CSE research
- Leadership development
 - CCC membership is a training ground
 - CCC activities continue to engage and excite the community and stakeholders

<http://cra.org/ccc>

Summary

- CCC has executed on its plans to create a long-term sustainable organization
- CCC has become known as a resource for ideas, people, and action on a broad range of computing issues
- CCC will continue to engage and catalyze the CSE research community around new ideas and important issues
- CCC will continue to grow human resources by emphasizing leadership, involvement, and action

<http://cra.org/ccc>

Responses to Questions

- Agenda setting, CCC vs. CISE (Susan)
- Activities, Goals (Greg)
- What do you do after a workshop (Beth)
- Industry (Beth)
- Budget (Andy)
- CCC 2025 (Greg)

<http://cra.org/ccc>

| | Visioning | Connecting | Leadership | Communication |
|---|------------------------|-----------------------|-------------------------------|--|
| Establish the CCC as a widely accepted catalyst and voice for the computing research community. | Workshops and Blue Sky | Workshops | LiSPI, Postdocs Council mem | CCC Blog, Computing Research in Action |
| Bring the computing research community together to envision our future research needs and thrusts. | Workshops and Blue Sky | Workshops | | |
| Communicate these challenges, needs and thrusts to the broader national community. | | Position papers | Council, visioning leadership | CCC Blog |
| Create within the computing research community more audacious thinking. | Workshops and Blue Sky | Workshops | | |

Workshop Best Practices

- **Pre** workshop: Steering committee; Shared Goals and Outcomes; Snowball recruitment
- **During** workshop: Mixed methods (plenary, panels, breakout groups, facilitators); Find ways to capture materials
- **Post** workshop: White papers; Presentations and briefings

<http://cra.org/ccc>

Growing Capacity - 2025

- Until now -- from startup to sustainable
- Over the next five years
 - CCC alumni growth
 - CCC event participation/leadership growth
 - CI fellows cohort moves to mid-career

<http://cra.org/ccc>

Growing Capacity - 2025

- CCC 2025 - new opportunities
 - Dozens of alumni, now mid-career
 - Opportunities to bring new ideas/activities online
 - Established CS participation in boards/organizations
- CCC 2025 future?
 - More external engagement - more varied communities, more diversity - more “delegation”
 - New activities driven new needs of a much larger and more diverse community
 - CCC still active in catalyzing and driving national priorities

<http://cra.org/ccc>
