# Things You Can Do Immediately

- Plan an event for CS Education Week and invite local policy makers
- Encourage a young person to study computer science (especially those from under-represented groups)
- Become a judge for NCWIT Aspirations in Computing
- Submit a CE21 grant proposal to NSF
- Study up – *ACM/CSTA Running on Empty Report*, *NCWIT Ed Jobs Map* ([ncwit.org/edjobsmap](http://ncwit.org/edjobsmap)), etc.
- Visit local school district officials and tell them you support rigorous computer science courses in K-12
